We now have 21 open sites!

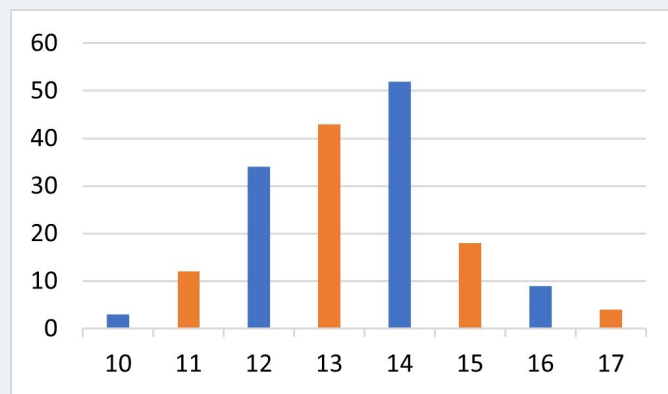

Latest News

The BASIS Study has now recruited more than any other bracing study in scoliosis! We would like to say a big thank you to you all, we couldn't do this without you!

⇒ We now have **174** patients taking part in the BASIS Study.

⇒ The graph below shows the current age of patients in the study.

Some of you will be attending your 6, 12, or even 18 month follow up appointments in the next few months, please remember to complete your online questionnaires when they're emailed over to you! **All those that complete their questionnaires on time will be entered into a prize draw.**

Thank you to everyone who took part in the qualitative study! This study has now finished and the findings are being analysed. We appreciate your time and enthusiasm for taking part in this study, it's been really helpful to chat to some of you about your experiences.

A big thank you to all participants for your ongoing involvement in the study!

Please ensure you keep your local research team up to date with any changes to your contact details.

Remember to visit our website to learn more about the study, including videos and links to other helpful information.
